SKILLS

- HTML, CSS, DOM
- JavaScript
- React.js Angular, Bootstrap
- Bootstrap
- Agular
- Git
- Figma

EDUCATION

BSSS(Barkatullah University)

Bachelor of Science:- 7.5 CGPA

Year of Completion:- 2021

Bal Bharati Public School

Intermediate

Year of Completion:- 2018

LANGUAGES

English

Hindi

Spanish

PROFILE

With over 2 years at Deloitte, I specialized in front-end development, notably contributing to a U.S. government project. Proficient in React and Angular frameworks, I enhanced user interfaces and collaborated cross-functionally. Committed to quality and innovation, I bring technical expertise and dedication to future projects. My future goal is to elevate my front-end development expertise, lead innovative projects, and foster a collaborative work environment. I aspire to make a meaningful impact in the tech industry while continuously expanding my skill set and staying at the forefront of emerging technologies.

WORK EXPERIENCE

DC-Analyst

Deloitte

2021-2023

Developed responsive interfaces using React, focusing on creating intuitive and visually appealing user experiences. Employed best practices to enhance performance and ensure cross-browser compatibility. Created and managed reusable React components, emphasizing modularity and scalability. Implemented state management to efficiently handle data within components.

Integrated backend APIs seamlessly using Axios and Fetch, ensuring robust data communication between the front-end and server.

Implemented client-side routing using React Router to create a smooth and dynamic single-page application navigation experience.

Identified and resolved performance bottlenecks by employing optimization techniques such as code splitting, lazy loading, and efficient render cycles.

Conducted thorough unit and integration testing to validate the reliability and functionality of the codebase.

Collaborated closely with UI/UX designers to bring design concepts to life and with backend developers to integrate front-end and back-end systems seamlessly.

Ensured web applications followed accessibility standards (WCAG), making them inclusive and usable for all users.
